

# SOIL ORGANIC CONDITIONER (Biostimulant)

Product Code : WA307

**Warkem Agri**  
Organic Farming Solutions  
A Division of Warkem Biotech

## What is HumiKure® ?

HumiKure® is a potassium salt of Humic acid, derived from high-quality leonardite. It is an effective Biostimulant that enhances soil health and promotes robust plant growth.

## Why HumiKure® ?

- 100% Water Soluble
- Improves Soil Structure
- Increases Water Retention
- Stress Resistance in Plants
- Reduces Heavy Metal Bioavailability
- Enhances Nutrient Availability
- Enhances Root Development
- Enhances Soil Microbial Community
- Regulates Soil pH

## When to Use HumiKure® ?

Can be used when crops undergo biotic and abiotic stress, restarting new vegetative growth, pre and post flowering and fruiting.

**For which crops ?** For all types of crops.

**Available Pack Sizes :** 2kg
